

Numeracy and Literacy
through coding and
robotics.

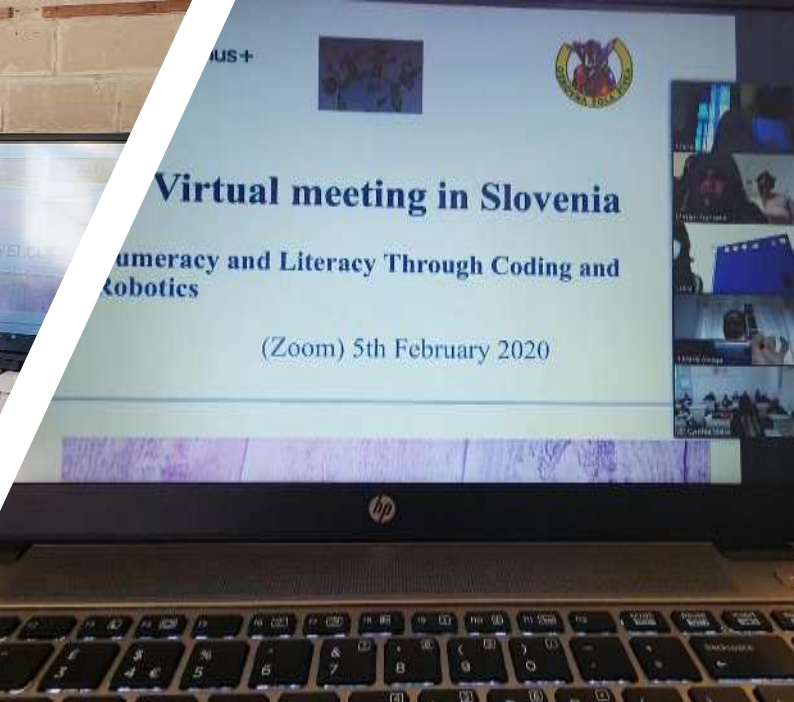

Virtual Mobility
February 2021

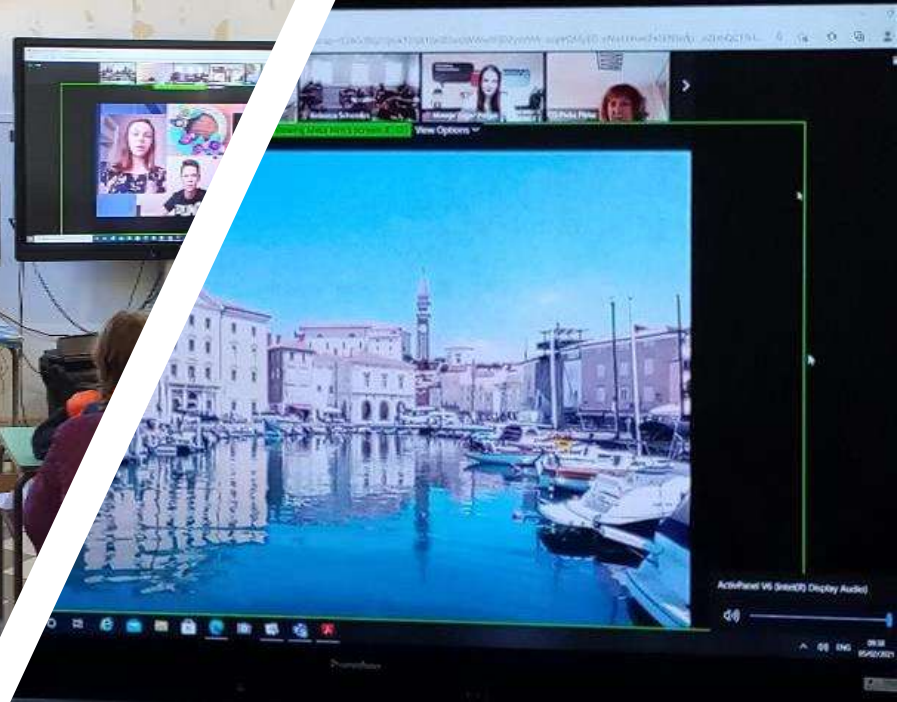

Hosted by:
Slovenia

1st Activity

- Welcome meeting addressed by Slovenia project coordinator and by the headmistress of the hosting school, Osnovna sola Pivka.
- Short presentation about Slovenia and virtual school tour

2nd Activity

- Gym lesson: I can create a sequence of instructions (an algorithm)
- Presented by Kristina Vatovec

Warm up

Having fun creating movement sequences

3rd Activity

- Dancing with coding is fun: “Let’s go around the world”.
- Presented by Lucija Skvarca

Learning the moves

The final
dance

4th Activity

- Evaluation of the day's events with the partners of this project.

The image shows a screenshot of a Zoom meeting. At the top, there is a gallery view of several participants' video feeds. Below the gallery, a presentation slide is displayed. The slide has a light beige background with a blue rectangular box containing white text. The text on the slide reads:

EVALUATION

Summarise of the lessons, if were successful,
were goals accomplished?

Evaluation questionnaire

The participants visible in the gallery view are: Maria, Lucija's iPad, Litene, William Francetic, Lisa Morris, and Alison Micallef.
